MUST-HAVE ACCESSORIES

## *Feeling Cheeky?*

"In five minutes I can make someone look 10 years younger," promises Dr. Steven Dayan. Nonsurgical cheek implants—done with the fillers Radiesse, Perlane, or Juvederm—are attracting patients who want supersculpted cheekbones (think Madonna). The ideal face shape is an inverted triangle, says Dr. Dayan, but as women age, sagging jowls create the opposite effect. The in-office procedure has no down time and lasts up to 18 months. It can also eliminate some under-eye circles caused by shadowing. *Dr. Steven Dayan, 845 North Michigan Avenue, Suite 923 East, 312-335-2070; drdayan.com.*
